#### 1. PRODUCT DESCRIPTION

# Cost-effective Full PoE+ Power and Gigabit Extension Solution Ideal for Hardened Environment

Featuring Plug and Play designed to be installed in heavy industrial demanding environments, PLANET IGS-1020PTF-12V is an Industrial-grade, DIN-rail type Unmanaged Gigabit Ethernet PoE+ Switch with **eight 10/100/1000BASE-T** ports featuring **IEEE 802.3at PoE+** and **two 100/1000BASE-X fiber** optic interfaces for uplink connection.

The IGS-1020PTF-12V is designed with redundant power system and is able to operate reliably, stably and quietly in any hardened environment without affecting its performance. It comes with a total power budget of up to **240 watts** for different kinds of PoE applications and operating temperature ranging from **-40 to 75 degrees C** in a rugged IP30 aluminum housing.

#### **Convenient and Reliable Power System**

To facilitate the 802.3at PoE+ usage with the commonly-used 12~48V DC power input for transportation and industrial-level applications, the IGS-1020PTF-12V adopts **12~56V DC to 54~56V DC power boost technology** to solve power source issue but does not require special power supplies. Its wide-ranging voltages design is suitable for worldwide operability with high availability applications requiring dual or backup power inputs.

#### 802.3at PoE+ Power and Ethernet Data Transmission Extension

The IGS-1020PTF-12V has a built-in solid DIP switch providing "**Standard**" and "**Extend**" operation modes. The IGS-1020PTF-12V operates as a normal IEEE 802.3at PoE+ Switch in the "**Standard**" operation mode. In the "**Extend**" operation mode, the IGS-1020PTF-12V operates on a per-port basis at 10Mbps full duplex operation and can support 20~25-watt PoE power output over a distance of up to **250 meters**, overcoming the 100-meter limit on Ethernet UTP cable.

#### Fiber Optic Link Capability for Flexible Distance Extension

The additional two mini-GBIC slots built in the IGS-1020PTF-12V supports SFP auto-detection and dual speed as it features **100BASE-FX** and **1000BASE-SX/LX SFP** (small form-factor pluggable) fiber-optic modules, meaning the administrator now can flexibly choose the suitable SFP transceiver according to the transmission distance or the transmission speed required to extend the network efficiently. The distance can be extended from 550 meters to 2 kilometers (multi-mode fiber) and 10/20/30/40/50/60/70/120 kilometers (single-mode fiber or WDM fiber). They are well suited for applications to uplink to backbone switch and monitoring center in long distance.

#### **Environmentally-hardened Design**

With the **IP30** aluminum industrial case, the IGS-1020PTF-12V provides a high level of immunity against electromagnetic interference and heavy electrical surges which are usually found on plant floors or in

curb-side traffic control cabinets without air conditioning. It features a ventilated construction in which a cooling fan is not necessary, thereby making its operation noiseless. Being able to operate under the temperature range from **-40 to 75 degrees C**, the IGS-1020PTF-12V can be placed in almost any difficult environment.

#### **Robust Protection**

The IGS-1020PTF-12V provides contact discharge of ±6KV DC and air discharge of ±6KV DC for Ethernet ESD protection. It also supports ±6KV surge immunity to improve product stability and protects users' networks from devastating ESD attacks, making sure the flow of operation does not fluctuate.

#### Intelligent LED Indicator for Real-time PoE Usage

The IGS-1020PTF-12V helps users to monitor the current status of PoE power usage easily and efficiently by its advanced LED indication. Called "PoE Power Usage", the front panel of the Industrial Gigabit PoE+ Switch has four orange LEDs indicating 60W, 120W, 180W and 240W of PoE power usage.

#### Flexible and Easy Installation with Limited Space

The IGS-1020PTF-12V is designed to be installed in different environments, such as wall enclosure. It can be installed by fixed wall mounting or DIN rail mounting, thereby making its usability more flexible and easier in any space-limited location.

#### 2. PRODUCT FEATURES

#### **Physical Port**

- Eight 10/100/1000BASE-T Gigabit Ethernet RJ45 ports with IEEE 802.3af/at PoE+ Injector (Ports 1 to 8)
- Two 100/1000BASE-X SFP slots for SFP transceiver type auto detection (Ports 9 and 10)

#### Power over Ethernet

- Complies with IEEE 802.3at Power over Ethernet Plus, end-span PSE
- Backward compatible with IEEE 802.3af Power over Ethernet
- Up to 8 ports of IEEE 802af/802.3at devices powered
- 240-watt PoE budget
- Supports PoE power up to 30 watts for each PoE port
- Auto detects powered device (PD)
- Circuit protection prevents power interference between ports
- Remote power feeding up to 100 meters

#### Industrial Case and Installation

- IP30 aluminum case
- DIN-rail and wall-mount designs
- 12~56V DC, redundant power with reverse polarity protection
- Supports 6KV DC Ethernet ESD protection
- -40 to 75 degrees C operating temperature

# Switching

- Hardware-based 10/100Mbps (half/full duplex), 1000Mbps (full duplex), auto-negotiation and auto MDI/MDI-X
- Features Store-and-Forward mode with wire-speed filtering and forwarding rates
- IEEE 802.3x flow control for full duplex operation and back pressure for half duplex operation
- 8K MAC address table size
- 20Gbps switch fabric
- 9K jumbo frame
- Hardware-based DIP switch for "Standard" and "Extend" mode selection; the "Extend" mode features 30-watt PoE transmission distance of 250m at speed of 10Mbps
- Automatic address learning and address aging

#### 3.3 PHYSICAL SPECIFICATIONS:

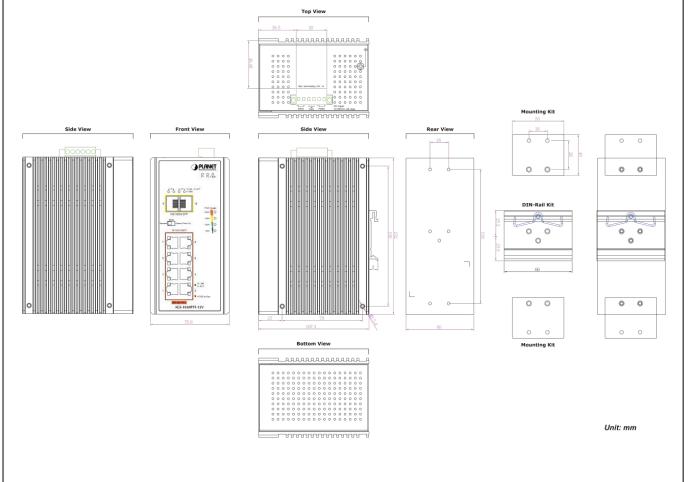

# ■ Dimensions (W x D x H):

77 x 106 x 152 mm

# Weight:

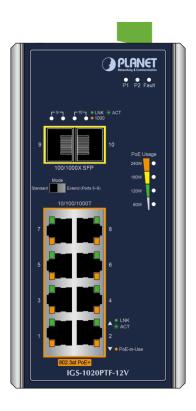

1164g

#### Diagram

# LED Definition:

# ■ System

LED	Color	Function
P1	Green	Lights: Indicates power 1 has power.
P2	Green	Lights: Indicates power 2 has power.
Fault	Red	Lights: Indicates either power 1 or power 2 has no power.
		Off: Indicates the PoE usage is less than 30W.
60W	Amber	Blinks: Indicates that the PoE usage is around 30W to 59W.
		Lights: Indicates the PoE usage is around/over 60W.
120W	Amber	Blinks: Indicates that the PoE usage is around 60W to 119W.
12000	Amber	Lights: Indicates the PoE usage is around/over 120W.
400\4	Amber	Blinks: Indicates that the PoE usage is around 120W to 179W.
180W	Amber	Lights: Indicates the PoE usage is around/over 180W.
24004	Amber	Blinks: Indicates that the PoE usage is around 180W to 239W.
240W		Lights: Indicates the PoE usage is at the maximum.

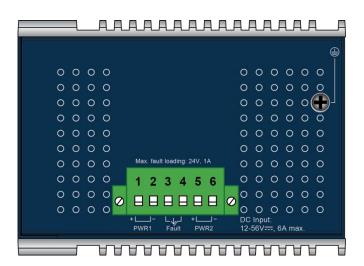

#### ■ Per 802.3at PoE+ 10/100/1000BASE-T Interface (Ports 1 to 8)

LED	Color	Function
LNK/ACT	Green	Lights: Indicates the link through that port is successfully established at 10Mbps, 100Mbps or 1000Mbps.  Blinks: Indicates that the switch is actively sending or receiving data over that port.
PoE-in-Use	Amber	Lights: Indicates the port is providing DC in-line power.  Off: Indicates the connected device is not a PoE powered device (PD).

#### Per 100/1000X SFP Slot (Ports 9 to 10)

LED	Color	Function
		Lights: Indicates the link through that port is successfully established at
	Croon	1000Mbps or 100Mbps.
LNK/ACT	Green	Blinks: Indicates that the switch is actively sending or receiving data over
		that port.
		Lights: Indicates the link through that port is successfully established at
1000	Amber	1000Mbps.
		Off: Indicates the link through that port is not established or is established at
		100Mbps.

#### Top view:

- 1. The wire gauge for the terminal block should be in the range of 12~24 AWG.
- 2. The IGS-1020PTF-12V supports DC input range of 12V to 56V. To avoid damage, please use the IGS-1020PTF-12V according to the following specifications:

DC Input	Max. PoE Budget
----------	-----------------

12V	60W
24V	120W
48V	240W

#### **DIP Switch:**

DIP Switch Mode	Function
Standard  100/1000X SFP  Modo Exend (Pors 5-6)  10/100/1000T	DIP switch is off This mode makes the Industrial PoE+ Switch operate as a general switch and all PoE ports operate at 10/100/1000Mbps auto-negotiation.
Extended  100/1000X SFP  Mode Standard Extend (Ports 5-9) 10/100/1000T	DIP switch is on This mode makes Ports 5 to 8 of the Industrial PoE+ Switch operate on a per-port basis at 10Mbps full duplex operation but can support PoE power output over a distance of up to 250 meters overcoming the 100m limit on Ethernet UTP cable.

<sup>\*</sup>Note: After changing the DIP switch mode, please reboot the switch to take effect.

#### 3.4 ENVIRONMENTAL SPECIFICATIONS

#### Operating:

Temperature: -40 ~75 degrees C

Relative Humidity: 5% ~ 90% (non-condensing)

#### Storage:

Temperature: -40 ~85 degrees C

**Relative Humidity**: 5% ~ 90% (non-condensing)

# 3.5 ELECTRICAL SPECIFICATIONS

Power Requirements: 12~56V DC power with reverse polarity protection

#### **Power Consumption:**

Condition Power Input	System ON	Ethernet Full Loading	Ethernet + PoE Full Loading
DC 56V	5.6W	8.4W	252.1W

#### 3.6 REGULATORY COMPLIANCE

FCC Part 15 Class A, CE

#### 3.7 RELIABILITY

MTBF > 100,000hrs @ 25 degrees C

#### 3.8 BASIC PACKAGING

The IGS-1020PTF-12V x 1
User's Manual x 1
DIN-rail Kit x 1
Wall-mounting Kit x 1
RJ45 Dust Cap x 8
SFP Dust Cap x 2

#### 3.9 PACKING INFORMATION

Box Dimensions (W x D x H):  $300 \times 170 \times 90 \text{ mm}$ 

Weight (gross weight): 1394g

Carton Dimensions (W x D x H):  $385 \times 340 \times 490 \text{ mm}$ 

Carton Weight (gross weight): 14.74kg

**Quantity:** 10pcs in one carton
